

Keeping You Safe

We have doubled up on our air sanitation efforts. airPHX is the leading edge in sanitation technology. They produce a proprietary blend of oxidizing molecules that are generated when ambient air goes through a plasma cell. These are molecules that occur naturally in most environments, but airPHX produces them in a unique mixture and in levels that are both extremely effective in killing germs and well below safe levels as established by health regulations. This air sanitation process requires no chemicals or liquid additives making it organic and safe. This process also eliminates those annoying odors associated with fitness centers! You can workout with confidence at The PEAK, we are doing everything we can to keep you safe.
