

Dear members, we are always looking for opportunities that will help our members particularly in the areas where the majority are feeling the same challenges of running a business.

We are particularly excited about a new relationship we have developed with the Northeast Ohio Educational Service Network. The Willoughby Western Lake County Chamber of Commerce is collaborating exclusively with a Chamber of Commerce with them to connect Chamber member employers with work ready candidates. When you register on their platform, you will have the ability to connect with high school juniors and seniors in addition to other potential workers from all of Lake County and other nearby counties who are looking for work in many different career paths. The Northeast Ohio Educational Service Network online platform connects you with candidates for apprenticeships, internships, part-time and full-time work. **It is a free service to our members!**

Thank you to Paula Kucinic and her team at Northeast Ohio Educational Service Network for developing this portal to connect you with viable employees. Please take advantage of this opportunity and please share with us when you find new employees from the Northeast Ohio Educational Service Network! Create your free account now with this link:
