## Why DPS Aspire?

### What will I learn?

DPS Aspire is designed to be engaging, reflective and fun! We will discuss, address and explore:

- Identifying your individual leadership capacity and style
- Learn how to lead through the lens of cultural responsiveness and equity
- Leading through the Mission, Vision and Values of DPS
- Building meaningful relationships with peers and colleagues across DPS
- Leveraging your sphere of influence
- Cultivating greatness in others
- Leading for change

### What DPS Aspire participants are saying about the experience:

*I love working in Denver public Schools. I came to Martin Luther King Jr Early college because I was committed to the vision and purpose of equity in student achievement. I have attended and benefited from scores of professional development that refined and renewed my practice. DPS Aspire however was of a different caliber. It was the first training that truly addressed and impacted my soul as a teacher and leader. We have all encountered those leaders who lead from a truly authentic, passionate place; they seem to just have different a skill set or a gift. While that may be true, DPS Aspire began to deepen my capacity to be that type of leader as well.*
