

Colorado Measures of Academic Success (CMAS) Test Scores Available on Parent Portal

As schools are receiving their paper CMAS Individual Student Reports (ISRs), teachers should let parents and families know that they can access scores and the PDF files of the ISRs on the [Parent and Student Portals](#).

Parents and students can click on the “District and State Tests” section and download the PDF version of the CMAS ISRs by clicking “My CMAS Reports” in the top right corner.

If parents/guardians do not have a Parent Portal account already, please encourage them to create one by visiting myportal.dpsk12.org in order to access this valuable resource. Parents can also find more resources for CMAS and academic standards on the [Academic Standards site](#).
