

# STATE OF FREEDOM 2024

**“ Now is the time  
to get back on offense –  
reversing the moral decay  
of culture and restoring  
fundamental freedoms  
in America. ”**

– Jimmy Page

- 1 Global Communist Revolution** – The World Economic Forum (WEF), United Nations (UN), and World Health Organization (WHO) in coordination with likeminded globalist and corporate leaders have been aggressively executing their plans for The Great Reset and Agenda 2030. This will mark the end of national sovereignty and individual rights. It is a relentless effort to dismantle Western Nations and their culture, values, and way of life.
- 2 Authoritarian Control** – There is a war going on for the heart, mind, and soul of America and every single human being in the world. The ultimate battle is between **authoritarian control and human freedom and flourishing**. We are being manipulated, divided, and demoralized by state-controlled propaganda, censorship, and societal chaos. The government is actively colluding with major corporations and media outlets to target political opponents, suppress the truth, and silence those who speak out against tyranny. This has created fear and a chilling effect, silencing other law abiding citizens who oppose the destruction of our freedoms.
- 3 Educational Indoctrination** – The enemy has **infiltrated our educational system** and is going after our children. Their innocence is being stolen by intentional gender confusion and graphic sexual exploration. Worse still, they've replaced excellence with equity and merit with mediocrity. Our kids are being divided by race, turned into victims and victimizers, indoctrinated into the progressive ideology that hates America, and used as pawns for the progressive social justice agenda.
- 4 Border Invasion** – The enemy has invaded our southern border, sending millions of unidentified “refugees” into our communities all across America. It is a superhighway of human suffering – transporting violent crime, deadly drugs, and human trafficking across the country. These illegal migrants come from 160 different countries, do not share our values, and have no intention of assimilating into the American culture. And, we are experiencing a clash of cultures. This is a coordinated effort to eliminate our National Identity and any sense of national pride or love of country.
- 5 Chaos and Crisis** – The enemy has **initiated and capitalized on crises** from covid to climate to international conflicts and even chaos in our criminal justice system. And, with each crisis comes further erosion of individual rights and freedoms. By refusing to punish criminals and permitting violence, rioting, looting, and destruction of property, our communities are at the breaking point. Businesses are struggling to survive because of the theft, violence, and open disregard for the rule of law. Once quiet communities are no longer safe.

## **Freedom Warriors,**

With the recent dramatic election results, there is a palpable relief and growing optimism for freedom-loving Americans.

There is a renewed sense that **“America is Back”** and that it's ok to be proud to be an American again.

However, the conditions that have gotten us into this mess still exist in this country and around the world. Globalists who want to strip our freedoms and exercise authoritarian control still infect every level of government and every major institution in America.

It's going to take a herculean effort to root out Marxist, woke ideology and reverse the decades long damage from borders open to illegal immigrants, school indoctrination, media propaganda, medical mandates, corporate ESG activism, climate hysteria, the war on police, and the weaponization of our government against our most basic liberties of free speech and the right to defend ourselves.

The culture war still rages as leftist leaders brace to oppose the return to our foundational principles and freedoms.

### **Now is the time.**

There's a growing urgency that **Now is the time** to restore the moral fabric of our culture. **Now is the time** to restore individual rights, protect our kids, and make our communities safe again. We have a very short window of opportunity and we must go on the offensive against anti-American, anti-faith, anti-family, and anti-freedom forces that threaten the American Way of life.

### **Now is the time.**

I hope that you enjoy this annual report and join the Unstoppable Freedom Alliance as we fight to **restore the culture, reignite the American Dream, and realize the American Promise.**

## KINGDOM CULTURE VOTER GUIDE

A Biblical Roadmap to Fix the Culture & Save America

Published world-class **TAKE ACTION NOW** Resources to expose the truth and empower every-day American Citizens to take back America.

- The voter guide put the Top 10 Cultural Issues of the day through a Biblical lens, summarized the current cultural crisis, exposed the Political Ideologies, and helped voters make informed votes based by applying Biblical Principles.
- This guide gave voters the information they needed to answer this question:

*“Which candidate is more likely to support God’s Design, creating policy that supports the biblical worldview, and results in human flourishing?”*

# **THE AMERICAN RESPONSE 2024**

Overwhelmingly, America chose to reject evil and restore the American ideals.

## **REJECT**

***With this election, Americans OVERWHELMINGLY REJECTED:***

- **The Delusional Gender ideology** that confuses our children and tricks them into permanent, life-destroying surgery and drugs.
- **Indoctrination & Exploitation of our kids in school**, exposing them to hyper-sexualized books and ideologies that destroy their innocence and groom them for abuse.
- **State infringement on Parental Rights** to make all decisions regarding the well-being and upbringing of their children.
- **Men dominating Women & Girls** in sports and invading their private spaces like bathrooms and locker rooms, putting them in unsafe situations, unfair competitions, and stealing their opportunities and accolades.
- **Censorship of Free Speech** and government collusion with companies and media to silence Americans with dissenting opinions and beliefs.
- **Open Borders and the superhighway of violent criminals**, deadly drugs, and human trafficking to destabilize our communities.
- **Bringing in millions of illegal immigrants** and displacing and diverting resources away from American Citizens already in need.
- **Robbing Us by Funding Reckless Wars** that launder our tax dollars through foreign conflicts to feed the industrial war machine and bring human suffering to far-away lands.
- **Infringing on Religious Freedom** and by targeting, persecuting, and prosecuting people of faith for their free exercise of their religion.
- **Medical Mandates from unelected agencies** that rob us of freedom to make personal health decisions based on informed consent and conscience.
- **WOKE Ideology like DEI and CRT** and the preference of people based on irrelevant external characteristics over talent, performance, and merit.
- **The Victim Mindset** where people are powerless to change their lives and blame others for their failures.
- **Transferring American Generational Wealth** from small businesses and families to multi-national globalist companies who hate us and our values.
- **Abortion without limits** all the way to the delivery date, devaluing human life.
- **Putting Americans LAST.**

## **EXPECT**

***Here's what we expect from the new Administration:***

- **Borders Closed** to illegal immigrants to stop lethal drugs, violent crime, and human trafficking.
- **Women & Girls competing** without the presence of biological men and boys on the fields or in their locker rooms.
- **Moms & Dads restored** to their rightful place of parental authority over their children, free from State interference.
- **People of Faith** freely expressing their deeply held religious beliefs in the public square free from censorship and government persecution.
- **Medical Freedom** over all our health decisions without government threat, coercion, or loss of freedoms.
- **Kids protected** from radical gender confusion, political bias, social activism, and sexual exploitation in schools.
- **Energy Independence** and dramatically lower costs for everyday life.
- **Free Speech protected** from ideological censorship and the "ministry of truth".
- **Law & Order restored** to punish criminals, protect the victims of crime, and restore safe communities.

It's time to restore a culture of righteousness, individual liberty, and unbridled optimism and opportunity.

# 2025 STRATEGY

Our strategy for 2025 is to go on the offense.

With the overwhelming results of the 2024 election for Pro-Faith, Pro-Family, and Pro-Freedom ideology and policy, we have a unique opportunity to reverse the moral decay of culture and restore the principles of American Freedom.

We will do this in the following ways:

1

**Apply a Biblical Worldview to every Cultural Issue of the Day and expand our reach through the Church.**

2

**Publish the *Freedom Series***

We will publish a three book series in 2025 that will spark an immediate, take-action movement to protect freedom by activating citizens to engage in every aspect of the culture. This series will also intentionally get people ready for crisis.

## ***Kingdom Patriots***

This book gives Christians permission to love God and love country again. It realigns our allegiance under God over politics, party, and preference and restores our love for the guiding principles of America. This book activates a movement of human flourishing and freedom.

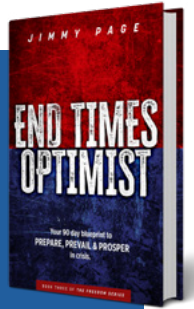

## ***Righteous Revolution***

This book is a call to take a stand for righteousness and save the culture. It exposes the clash of kingdoms and reminds us of the American way, reveals the cultural collapse and gives every American freedom lover the specifics of "What can we do now?"

## ***End Times Optimist***

There are many signs that we are accelerating toward the end times. And, it's more likely than ever that we will have a serious challenge, or crisis. It's too late to prepare for a crisis after it hits. This book is your 90 day blueprint to prepare, prevail, and prosper through crisis.

3

**Expand the Movement**

The key to 2025 is to go on offense and expand the message and movement.

- **Podcasts** - our goal is publish a weekly podcast and to double our reach.
- **Events** - our goal is to attend the Top 4 Freedom Events and conduct podcast interviews, speak, sell books, and expand relationships.
- **Stages** - our goal is to speak on 24 stages (both live and virtual) at Freedom Events, Companies, Conferences, Churches, and Ministries.
- **Social Media** - our goal is to reach 4 million people through social media channels.

## WE NEED YOUR HELP – GOAL \$100,000

**Together**, we have answered the call to **fight for freedom**, protect it, and hand it on to the next generation. We believe that “freedom is never more than one generation away from extinction.” As the culture war rages, we will continue to **expose the truth, engage the people of God, and empower everyday Americans** to do their part.

There is much to do and we need your financial support. [Please consider a gift toward our 2024 goal of \\$100,000.](#) [Click here](#) to give a year-end gift or set up your recurring monthly investment in the future of freedom.

Thank you for your prayers, your encouragement and your financial support.
