

Understanding the threat of Sharia Law in the United States

A panel discussion

May 7, 1:00 – 3:30 pm

**Republican Party Headquarters
211 Central Park Avenue Suite E
Pinehurst, NC**

The threat of Sharia Law spreading in the United States is great - and the media is not reporting on this major issue. For instance:

- In New York City, Times Square is regularly closed to allow multiple thousands of Muslims to kneel and pray to Mecca.
- In Minnesota, we are seeing the Islamification of Minneapolis and the absolute corruption it has been brought in. The redesigned Minnesota State Flag is almost a near replica of the Somali flag.
- In Michigan complete communities have been taken over by Islamists and Christians that are objecting to the renaming of streets to Muslim names are ridiculed and told they are not welcome there.
- In Texas an absolutely monster mosque and development has been let to proceed, but people are pushing back.

And we're not alone:

Great Britain has fallen to an Islamic takeover (ten major cities in England are ruled by Muslims) and Europe (France, Germany, Spain) is close behind. Nordic countries are not far behind. The final collapse has not yet happened - but it is already "baked into the cake." Demographically it cannot be changed.

You may not have heard about any of these things. The media has been derelict in reporting any of this. This panel discussion will provide information and insight into this major issue.
