

March Safety Newsletter

Competition!

When it comes to safety, many times the winner is not the hare, but the tortoise. Rushing, not using proper PPE, poor housekeeping, not keeping your mind on task, are the cause of dozens of injuries Norco has experienced in the last six months. These injuries have sidelined our co-workers who need to recover while others must pick up the slack. No winner in that.

During February, we sent out 50 Certificates of Achievement to locations with no injuries during 2022. Those locations have approximately 550 individuals working safely day in and day out. Congratulations!

No Injuries during 2022							
Group	Location	Group	Location	Group	Location	Group	Location
6	NorLab	30	Rexburg	60	Twin Falls Qual	85	Rawlins
7	Blackfoot	31	La Grande	22	Ogden	86	Rock Springs
11	Main Office	35	Klamath Falls	65	Salt Lake City	87	Evanston
13	burley	38	Hermiston	68	Missoula Qual	88	Vernal

25	Hamilton	55	Spokane Industrial	79	Portland Qual	104	McCall
28	Grangeville	58	Moses Lake ASU	82	Cheyenne	375	Beaverton
29	Moscow	59	Ephrata	84	Casper	651	Orem
						671	West Jordan

We are very pleased to announce that during Q4 a total of 99 employees provided feedback every week on the *Weekly Safety Minute*. For their valuable and consistent input, we selected 25 at random to receive gift cards in appreciation. Those will go out in March.

We are also happy to announce a SharePoint reorganization is in the works for Norco's Safety Department Portal. This update will reflect the work of our dedicated teams operating as Safety Committees. There will be a *Safety Department* landing page and a new, separate *Safety Committee* page.

This change gives both chair and co-chair members the ability to upload information as well as collaborate content across groups. Everyone will still have access to read the content, but this is intended to reduce communication barriers. Want to find your committee's last meeting or Safety Committee folder? Looking for the latest WSM or a specialty training video? The updated Safety Department Portal will be the place.

Remember, safety is not an accident.
