

# Learn & Play Instructions

1. Sign into Zoom for the mini-lesson 5-10 min before the start time.
2. After the mini-lesson, click on the Shark Bridge link in the Zoom Chat
3. Enter your name and middle initial for you and your partner. This has to be exactly the same for each pair to avoid system problems.
4. You will now have the Zoom and SB windows opened on your device. To view both windows depends on your device:
  - a. If using a Mac, there is an app to set up split screen
  - b. If using a PC, drag one window to the side until it takes half the screen, then click on the other window to take up the second half of the screen.
5. Click and hold the **Alt**, then click on the **Tab** button to cycle between all open windows on your PC.
6. The first hand will be loaded and you will be moved to a breakout room with your partner.
7. Make sure you are viewing the SB table to play the hand while Zoom is in the background to communicate with your partner. You will have 8 min to play a board. Please don't discuss the hand until finished.
8. For help, click the help button in your breakout room and I will join you.
9. You will be moved back to the main room for discussion.
