

AUDIOLINK

A New Way to Connect

MED⁹EL

A new universal connectivity device from MED-EL is coming to the United States! With AudioLink, you can enjoy your favorite content by connecting SONNET to phones, tablets, televisions and other media devices.

With AudioLink you can:

- experience hands-free phone calls via Bluetooth with iPhone and Android
- stream music and television wirelessly to your audio processors
- listen using the remote mic feature in noisy environments like work, school or the dinner table

As of **June 1st, 2019**, select AudioLink as your connectivity option and receive a voucher with your new SONNET or SONNET EAS patient kit, to be automatically fulfilled when this exciting technology becomes available. To learn more about AudioLink, contact MED-EL at **(888) 633-3524** or **implants.us@medel.com**.

AudioLink is not compatible with RONDO, RONDO 2 or OPUS 2.
