## **MGP Reduces Minimum Order for Custom Mash Bills**

*New 250 Barrel-Minimum Supports Customers' Product Development, Branding*

**ATCHISON, KAN., July 25, 2018** — Craft distillers who want to explore or launch new brands now have additional support from MGP. The company has reduced its minimum order for proprietary mash bills to 250 barrels from the previous 1,000-barrel requirement, said MGP Vice President of Alcohol Sales and Marketing David Dykstra.

In addition to lowering the minimum order, MGP will allow customers to “pool” orders with other distillers to fulfill the 250-barrel requirement.

“Offering this additional flexibility to customers is yet another way that MGP helps develop exceptional brands, whether our experts are creating a new mash bill or providing an existing mash bill ready for a distinctive finish,” Dykstra said.

MGP also offers a customized entry proof and the option to use either new or used barrels. A customer also can opt to store product in an [MGP](http://www.mgpingredients.com) rack house when it is ready to age.

“We’re full-service and fully committed to partnerships that benefit our customers of all sizes,” Dykstra said.

For more information on how MGP can help build your brand, please contact your MGP sales representative.

###

### **About MGP**

Founded in 1941, MGP (**Nasdaq: MGPI**) is a leading supplier of premium distilled spirits and specialty wheat proteins and starches. Distilled spirits include bourbon and rye whiskeys, gins and vodkas, which are carefully crafted through a combination of art and science backed by decades of experience. The company's proteins and starches are created in the same manner and provide a host of functional, nutritional and sensory benefits for a wide range of food products. MGP additionally is a top producer of high quality industrial alcohol for use in both food and non-food applications. The company is headquartered in Atchison, Kansas, where distilled alcohol products and food ingredients are produced. Premium spirits are also distilled and matured at the company's facility in Lawrenceburg, Indiana. For more information, visit [mgpingredients.com](http://www.mgpingredients.com).
