As always, your support of the ABC Northern California's products and services is greatly appreciated!

Kathryn McGuire – Brown Construction

1. How long have you been a member of ABC NorCal?

16 years

2. Why did you join ABC NorCal? We joined ABC NorCal to meet our apprentice/training contribution requirements for prevailing wage projects. However, once we became members, we utilized educational/craft training, health insurance benefits, and have even hired several graduates onto our staff.

3. What's your favorite part of being a member of ABC NorCal?

Believing in the system of free enterprise and open competition. It is great to meet and work with like-minded people through ABC and the individuals I have met through ABC.

4. What Board do you currently volunteer with?

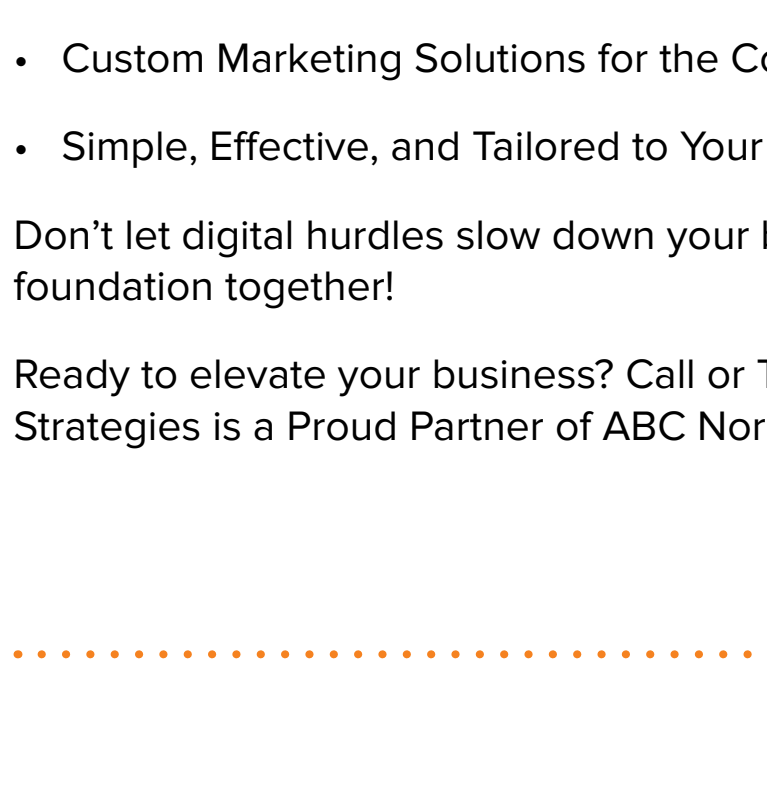

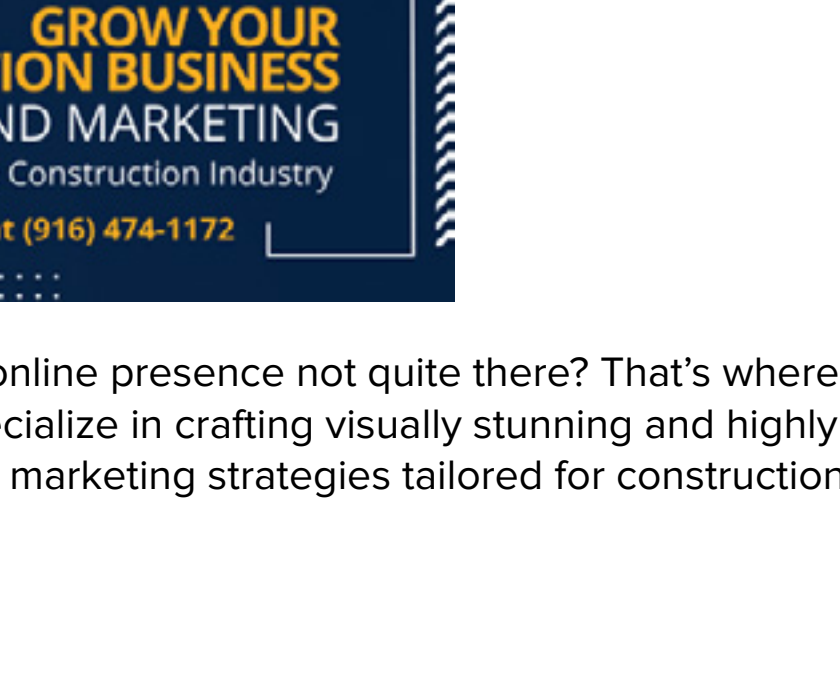

Chair of the Benefit Trust Fund

5. What is your current occupation?

Chief People Officer

6. What advice would you give to someone who wants to enter [your field]?

Do it! Construction has so many pathways that people aren't aware of. I try and share and encourage young people to explore opportunities which require a degree or trades, but either way, jobs will be there. Project management, estimating, accounting, human resources, wiring a building, creating foundations or walls, we all contribute. No matter the size of a project, I feel proud to see a building that our company constructed and know that I was a part of it, even if I never put one nail into it.

Safety Training and Evaluation Process (STEP)

Founded in 1989 as a safety benchmarking and improvement tool, STEP has evolved into a world-class safety management system that dramatically improves safety performance among participants regardless of company size or type of work.

Participating ABC member firms measure their safety processes and policies on 25 key components through a detailed questionnaire with the goal of implementing or enhancing safety programs that reduce jobsite incidents.
