

APPRENTICESHIP

Our year 1 painting apprentices (Painting 1.2 Blues) had demonstrations and presentations from Behr Paints and SRP & Associates. They gave out generous free samples, and the students learned a lot about different tools and items that could help them in their work. This class completed their first year of the program.

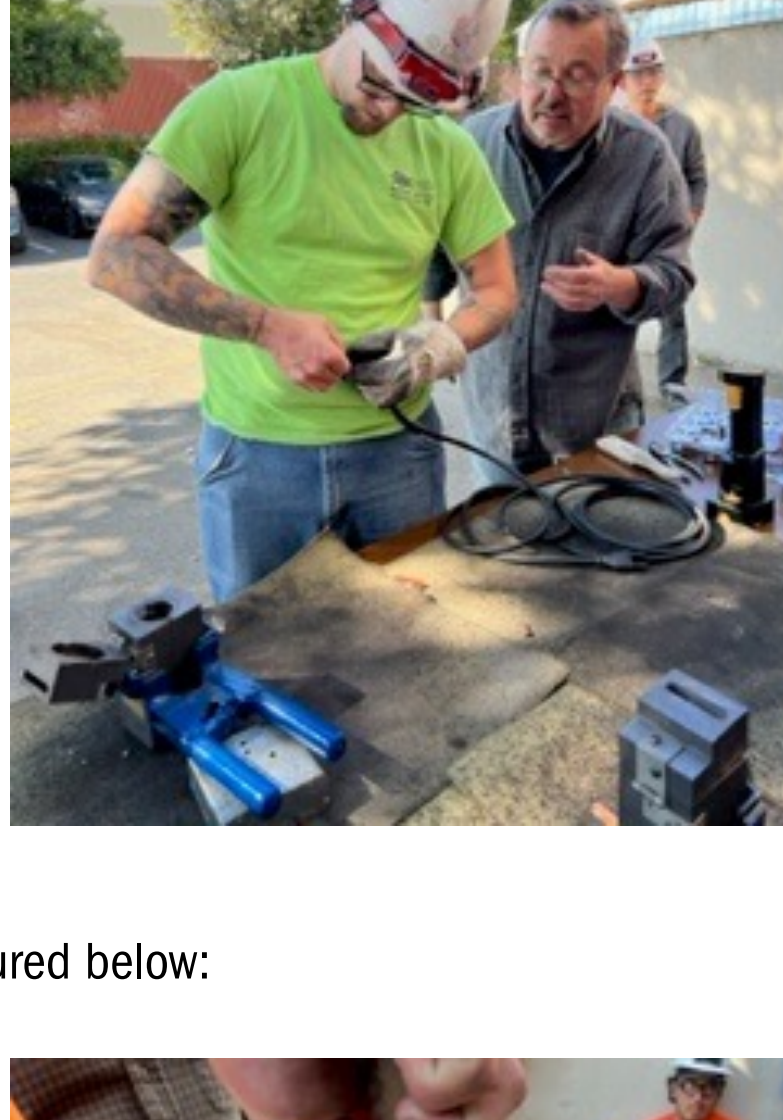

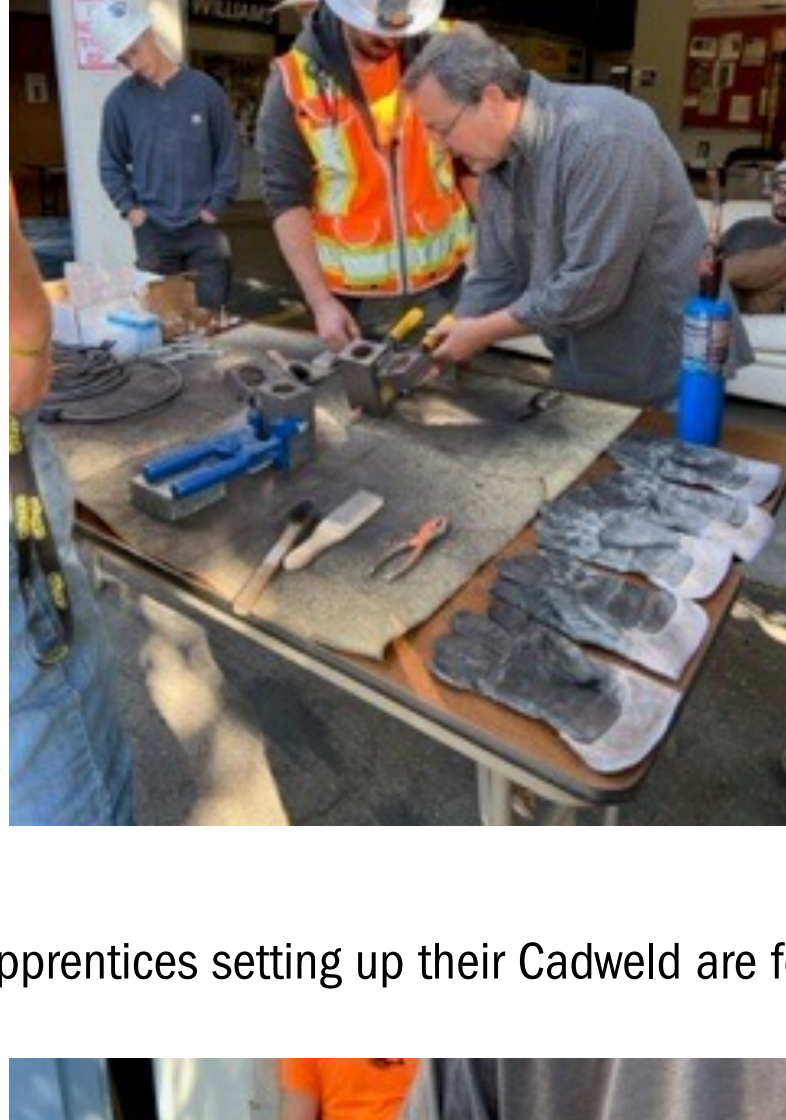

A huge thank you goes to Luke Markes & Shawn Zak with [Behr Paints](#), Kellen Cummings with SRP & Associates and Christian Ruiz with [CTS](#).

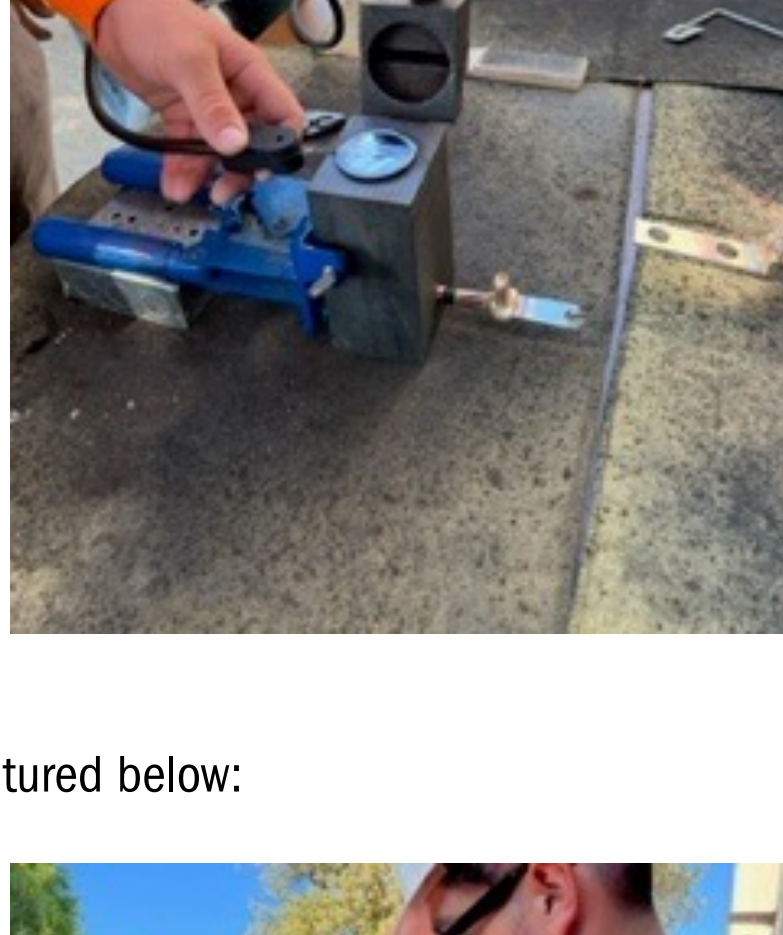

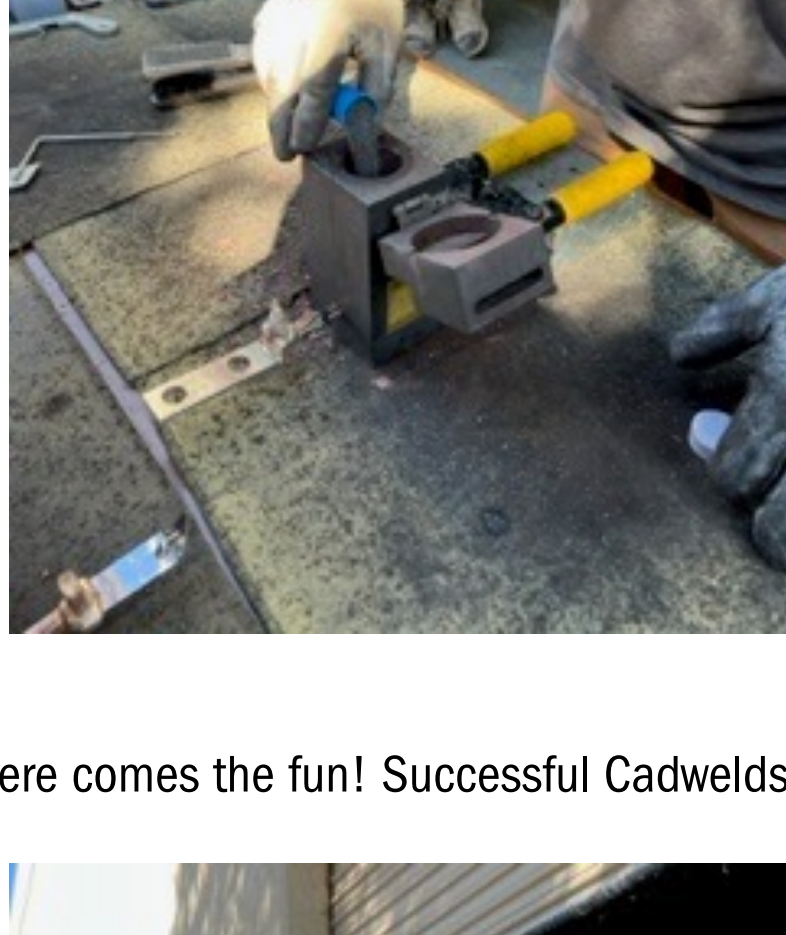

One of our electrical instructors taught an end-of-second-year class. During this week, the apprentices were introduced to motor control and received a Cadweld Certification from Tony Benavente with Empire Electric Sales Inc. Featured below is a drawing of a 3-wire motor control, about which the students were very enthusiastic to learn.

Below is Tony Benavente teaching apprentices how to set up a Cadweld, as well as students featured during the welding process.

Apprentices setting up their Cadweld are featured below:

Here comes the fun! Successful Cadwelds featured below:
