

APPRENTICESHIP

We held our first in-person classes—the Cedar's 3.1 Carpentry Class—at the Sacramento location, during the week of April 10-14, 2023.

The students settled into their new classroom, which closely resembles our Livermore location and provides the same inviting atmosphere. It's a perfect setting for apprentices to absorb every drop of knowledge their instructors are providing, while also allowing apprentices to get to know each other and share great ideas.

Having a presence near our state's capital is exciting for so many reasons. Having a location, essentially, in the heart of California, allows us to invite companies, community partners, prospective apprentices and more to see what we do at ABC NorCal.

We asked the apprentices their thoughts on the location, and they loved it! We have several apprentices who reside in the greater Sacramento area. The ABC NorCal Training Trust Fund and ABC NorCal Unilateral Apprenticeship Committee (UAC) are happy to be able to provide them with a closer location for attending in-person classes.

This week of classes entailed mostly class instruction, which covered excavating and trenching. We are excited to explore our warehouse space for future classes.

Our warehouse training area is a blank slate and ready to #buildwhatyoulove! While we're still getting settled in, we are excited to see future classes apply their valuable skills in framing, concrete formwork, weatherization, special instrument training, etc. in this space—the potentials are endless!

We look forward to seeing you at our [Open House event on July 19, 2023](#)

[Aztec Consultants](#) is showing off the ABC NorCal magnet on their Bobcat:

Are you training ABC NorCal apprentices and want to brand your vehicles with our new ABC NorCal magnet? We will send you one magnet for every apprentice you trained during the month of May 2023! Send us an email to apprenticeship@abcnocal.org.

Shout Out to Jeff Ostrom 2022 Plumbing Apprentice of the Year!

Our team met with Jeff during his classroom training and delivered his 2022 Plumbing Apprentice of the Year Award, plus a prize package of [Milwaukee Tools](#) valued at \$300 and a \$200 gift card!

Jeff was nominated by his company, WWF Contractors Corp. They had nothing but great things to say about Jeff!
