WELCOME NEW MEMBERS

- [Arrow Electric, Inc.](#)
- [Peak Performance Energy LLC](#)
- **Quantum Energy Services & Technologies, Inc.**
- **Raposo Engineering Inc.**

As always, your support of the ABC Northern California's products and services is greatly appreciated!

ABC NorCal Member [Christian Pellecchia, Bernards Construction](#)

1. How long have you been a member of ABC NorCal?

- I have been an ABC member for over 10 years.

2. Why did you join ABC NorCal?

- I joined for everything ABC has to offer: Workforce recruitment, apprenticeship programs for my employees, networking opportunities with subcontractors, legislative activities, and professional development.

3. What's your favorite part of being a member of ABC NorCal?

- All the great people I have met over the years that have helped me both professionally and personally. The longer you stay, the more the members become like family.

4. What is your current occupation?

- Project Executive with Bernards Construction.

5. What area council do you currently volunteer with?

- I am the chair of the South Bay Council, and we are looking forward to growing this part of the chapter in the next few years.

Congratulations STEP Award Winner!

News Releases

ABC: Members Invested \$1.5 Billion in Construction Workforce Education To Upskill 1.3 Million in 2022

ABC's all-of-the-above approach to workforce development has produced a network of ABC chapters and affiliates across the country that offer more than 800 apprenticeship, craft, safety and management education programs—including more than 300 government-registered apprenticeship programs across 20 different occupations—to build the people who build America.

Moving Past COVID-19 Shock: Three Lasting Impacts on the Construction Industry

By Samuel Giffin | Monday, June 5, 2023; COVID-19 , Commercial , Wellness , Institutional , Industrial

Between project delays, cost volatility, resource constraints and supply-chain hiccups, project owners and construction professionals have gritted their teeth and held on tight. The good news is that costs are stabilizing or even regressing in many categories.
