As always, your support of the ABC Northern California's products and services is greatly appreciated!

News Releases

Construction Adds 15,000 Jobs in April, Says ABC

The construction industry added 15,000 jobs on net in April, according to an Associated Builders and Contractors analysis of data released by the U.S. Bureau of Labor Statistics. On a year-over-year basis, industry employment expanded by 205,000 jobs, an increase of 2.7%.

Greetings from Greg Schniegenberg, Pacific Region Vice Chair

I'm happy to celebrate the success of our association so far this year! We've achieved significant milestones that I am excited to share with you.

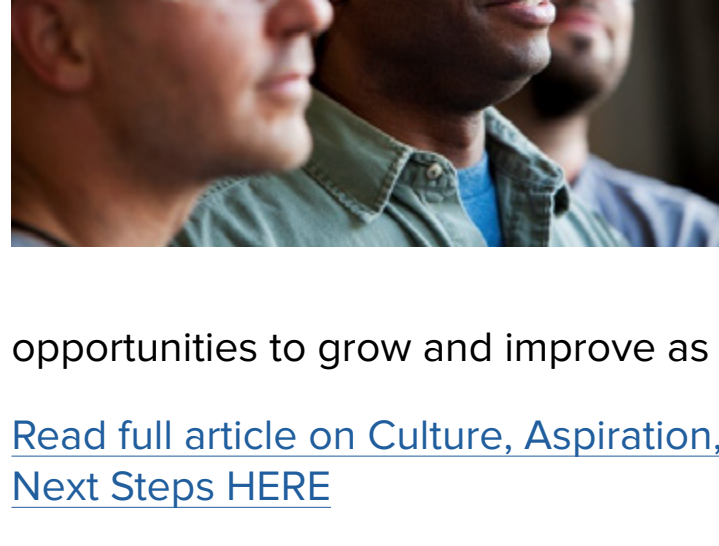

Our unwavering focus on safety and total human health has paid off. The 2022 Total Recordable Incident Rate is only 1.5 for STEP contractors. The industry average is 2.5. We look forward to continuing towards having 50% of contractors participate in STEP by 2027. Regarding workforce development, I'm delighted to share that 100% of our chapters have entry points into the construction industry. Additionally, Trimmer Construction Education Fund fundraising is at \$393,016 for the current cycle.

Our political advocacy efforts have also yielded positive results, with the FOCA bill now having 79 House and 25 Senate sponsors. We are excited to share that Wyoming has joined the 25 states that are FOCA. Our membership campaign is fully deployed with contractor renewals now at 95.91% and 22 chapters achieving growth over 2022.

Building A Culture Of Employee Engagement

Mission-driven companies have a unique opportunity to recruit and build long-term loyalty by identifying that a candidate is a culture fit, there is alignment with an employee's sense of purpose, and by connecting their role to its positive impact on achieving the company's mission. Since the beginning of the pandemic, Safety Center's CEO Darrell Teat has focused on resetting the culture and engaging employees in an environment that takes the lid off our

opportunities to grow and improve as individuals and as a company.
