June 16, 2020

Dear Family Members and Friends,

In accordance with Governor Cuomo's Tuesday, June 16, 2020 press conference announcement, Greystone Programs is preparing for in-person visitation for individuals and family members at Greystone IRAs to commence on Friday, June 19, 2020.

In order to ensure the safety of individuals, families and Greystone staff, we will continue to implement best practices for sanitization, precaution and prevention with guidance from the CDC, NYS Department of Health, OPWDD and Greystone's Infection Control Committee.

Your cooperation with regard to visitation protocols and the use of proper personal protection equipment (PPE) is greatly appreciated. We will forward more specific guidelines in a follow-up letter.

In the meantime, we understand how difficult it has been for you to be separated from your loved ones and we know how happy they will be to visit with you. We appreciate your patience and will do all that we can to facilitate a joyful reunion, while maintaining the safety of everyone involved. If you have any questions, please do not hesitate to contact me at: [spryce@greystoneprograms.org](mailto:spryce@greystoneprograms.org).

Respectfully,

Skip Pryce, CEO  
Greystone Programs, Inc.
