March 19, 2020

Dear Parent/Guardian,

At the moment, no one within the Greystone Programs, Inc. organization has been diagnosed with COVID-19. However, we are implementing precautionary measures to maintain the health and safety of the individuals in our care during the ongoing COVID-19 pandemic.

The Office of People with Developmental Disabilities (OPWDD) has provided guidelines that state, effective immediately, we must suspend all visitations except when medically or clinically necessary (i.e., any visitors must be essential to the care of an individual).

We will explore alternate means for you to stay in contact with your loved one.

If you have any questions, please feel free to reach out to me at:  
[spryce@greystone.org](mailto:spryce@greystone.org) or phone: (845) 452-5772 ext 101.

Working together during this unprecedented time,

Skip Pryce  
Chief Executive Officer  
Greystone Programs, Inc.
