Circle of Peace Makers

WOMEN'S INTERNATIONAL LEAGUE FOR PEACE & FREEDOM US

In 2007, Daoud Nassar and his family created Tent of Nations: an international peace center on their family farm in the West Bank outside of Bethlehem. The farm – a "Century farm" owned by the family since 1916 - is 100 acres and uses organic and sustainable farming practices. The land has been under threat of confiscation by the Israeli government since 1991 and the family has fought in the Israeli Military and Supreme Courts to maintain their ownership. They welcome people from all religious and cultural backgrounds to visit and engage with them in working the land, hear their story, and return home to become "peace makers" wherever they are.
