

Senior Program

Henderson Settlement has partnered with University of Louisville's Trager Institute to provide a FlourishCare program for our older adults. FlourishCare Services focus on life-long wellness with specialized care for older adults. The services include annual wellness visits, mental health support, fall prevention, and more.

Several assessments were completed while delivering hot lunches to our seniors. The Senior Center has been closed since COVID and we wanted a way to keep a connection with our seniors. Volunteers delivered 657 Senior meals this summer. GOD has blessed us with wonderful people to serve.

Youth Program

Virtual learning can be a nightmare for parents and students that don't have access to the internet. Henderson Settlement has tried to ease that burden by opening a Learning Center for students to be able to access the virtual classrooms they need for school. We have two youth workers that act as tutors for these students and help them complete their daily assignments. Our Center is open 4 days a week with two sessions, K-3rd grades from 9:00-11:30 am and 4th-12th grades from 1:00-3:30 pm. We are so thankful GOD gave us a way to provide this much needed ministry to our community.

Summer Feeding Update

Summer has come and gone and COVID really made us think outside the box. Our summer feeding program this year was mobile which made things a little more hectic but thanks to all the volunteers, HS staff, parents, and children it was a huge success. We served 14,278 meals from June 1st thru August 14th. We give thanks to GOD for making it possible to reach so many children.
