Henderson Settlement Community Outreach would like to say thank you for your recent generous donations to our Food Pantry. Your support has been even more critical during this past year. During the pandemic period of 2020, more than 300,000 lbs of food has been distributed within our community. This is greater than 3 times our average annual volume This was made possible by you! We have relied upon your financial support, and your prayers. Our appreciation for you goes beyond what words can describe! We are truly humbled by your generosity.

Our new walk-in cooler and freezer units are now up and running. These 8x8 units were made possible through a grant from God's Food Pantry and the Feeding America's program. This is an amazing gift. This greatly expands our capacity to store perishable food, allowing us to accept more fresh fruits and vegetables, as well as dairy items and meat! Stocking and storing more of these perishable items allows us to supply the people we serve with healthier, nutritionally-balanced grocery assistance. These units will also enable us to store and distribute vegetables produced within the Henderson Settlement Greenhouse Operation. The pre-installation prep of the units was a true team effort. Thanks to the electricians and to the Henderson Settlement maintenance and work camp staff for their hard work to make everything ready in time for the installation.

We have experienced God's provision for our Food Pantry ministry in amazing ways this past year. We look forward to see where He leads us utilizing these new capabilities. However, our focus remains the same: To serve HIM in a manner that brings honor and glory to HIS name, while bringing community members closer to HIM through this demonstration of His love. We hope you will come visit us soon to see this new installation, and also to experience in-person the impact our ministries have within our community.

Once again, our sincere thanks for your continued support and prayers for our organization and community. We truly appreciate your partnership with us in ministry. The Community Outreach Staff
