Virtual Work Camp

With the low 2020 levels of participation in Work Camp, we are now offering an alternative approach for those who prefer not to travel to Frakes this year. The concept is what we are calling 'Virtual Work Camp'. Interested persons or groups can select a community or on-campus project that they would like to sponsor, and then virtually participate by funding the materials, operational, and registration costs associated with executing that project. Since our community and campus project completion rate has been historically low this year, we have developed quite a backlog of work to be accomplished. We have also continued to operate Work Camp at a loss this year, in order to serve the most critical needs of the community, and to host the work teams that have chosen to come despite the COVID-19 concerns. At times, we also have volunteers who are willing and able to donate their time and talents, but are not positioned to fund a work week for their team.

Your participation in this program and your financial support will help ensure that Henderson Settlement Work Camp continues into the future, and is able to address our backlog to the full extent of available volunteer servants in 2021. Supporting this program is quite easy. Please check out this video for more detailed information. https://youtu.be/hGGGjJOG5JM
