Greetings from the Greenhouse!

Let me tell you about the amazingly wonderful happenings at the Greenhouses.

I mentioned in the last article that we were upgrading the electrical service and adding a generator. I also found out the that the generator needed was actually closer to $7000. So with the estimated $1800 electrical work and incidentals, we were looking at a cost of $10,000. It has been fully funded by the Bell County Farm Bureau. Praise God! **A huge THANK YOU to the people at the Bell County Farm Bureau!**

Also, in the last article, we stepped out in faith to hire someone at the greenhouse. **I am thrilled to announce that Hagon Blackburn has been hired** at the Greenhouse as a Vista worker. Hagon's start date was April 12th. Just one week before we officially opened for the season on Tuesday, April 20th. You will be hearing more about her in the future.

The next great thing is the stairway to the lower greenhouses. This area would wash out and make a large gully that was unsafe. These stairs now act as a way for the water to drain through a tile under the gravel. **Thanks to Al Thorson**, a long-term volunteer from Illinios, we now have a safe passage up and down the hillside.

We are as ready as we can be for the Spring Greenhouse Season. We had very few volunteers again this year but the few we did have were amazing. I could not do it without them. **THANK YOU VOLUNTEERS!!!** Flower and veggie plants are waiting patiently for someone to purchase them and take them home.

If you would like to donate to support the Greenhouse Operation.

YOU can do this either by check direct-mailed to Henderson Settlement marked for the Greenhouse (use the enclosed envelope) or via e-Giving at

https://www.hendersonsettlement.com/online-giving.html

and choose **Greenhouse Support** from the drop down list.

Thank you for all of your support!
