Settlement Ambassador Opportunity

The Henderson Settlement Lead Team recognizes that ours is not the only ministry for which God calls His people into service. It is, however, the ministry *to which He does call* specific individuals, groups and congregations. We need your help to make the connection with this second group of servants.

We are asking that you consider serving as a Henderson Settlement Ambassador, accepting the challenge of making connection with those in your community that do not currently know us. We are certain that God has already prepared the way and that your efforts will bear fruit. To assist those of you who will accept this challenge, we are preparing brief videos on a number of different topics we believe may be important to those you approach. We can quickly address any topics that you feel may be important and missing from our library. Nearly everything we produce will be available via our YouTube channel, with only a URL needed to access the content. This makes it *very* easy to share.

We would appreciate your giving us a call to let us know that you are accepting this mission for your area. This will help us identify any overlaps and gaps that we may be able to address in the future. Please just give Brittaney Patterson a call at 606-337-3613 (ext. 321). We will be excited to hear from you!
