"God Sightings"

Last Friday we filled our gym with huge inflatables for 41 children (and several adults) to play on during Summer Recreation. This was an exciting opportunity for our local youth, and one that does not come very often for them.

The kids were able to enjoy them for hours and were all so thankful for this special time.

Early that morning as the men from the inflatable company were on site setting up for our day of fun, one employee was so moved after seeing the children play, that he got out his wallet and gave us $500 for youth ministries!

Knowing that the cost of this experience was $425, Kaytee and I teared up as we had seen a "God Sighting"!

John
