Long Term Maintenance Volunteer Opportunity

Henderson Settlement has made a number of adjustments to adapt to the changing situation we have encountered in 2020. We furloughed the majority of our permanent staff members in mid-March of this year, but have sustained vital community services throughout the COVID-19 period, and continue to do so.

However, operating with a skeleton staff ultimately builds a list of deferred maintenance activities needing attention. We would like to offer a volunteer service opportunity to an experienced maintenance person, to work within our Maintenance Staff.

The minimum effective duration would be 2 months, and commitments of up to six months would be very welcome! The Settlement will provide housing, if needed, as well as meals at employee pricing during periods where the kitchen is staffed and operating.

Please contact Jerry Lambdin, our Volunteers in Mission Director, at vimdir@hsumc.org, and/or call Brittaney Patterson at 606-337-3613 ext. 321 to make contact to further discuss the details of this opportunity.
