Settlement Shutdown

The Settlement will shut down for all but critical operations (greenhouse, care for our livestock and security coverage) during the period December 23rd through January 5th. Normal operation will resume January 6th, 2020. This shutdown is taking place to conserve funds.

Donation and Work Camp revenue has been in decline since 2015, and has reached a critical level during 2019. The effect of lost wages during this period poses a hardship for all of our staff, but is a better option than permanent layoffs…a situation that we are trying to avoid.
