Mobile Dental Clinic

Access to dental care continues to be a significant challenge for our community members. Medical services (not dental) are typically much better supported by Medicare/Medicaid insurance and other State and Federal relief programs. We have historically met this need, in part, via the volunteered services of dental teams willing to donate a week of their time to see as many community patients as possible. These teams have used aging dental facilities in our Clinic Building.

We are excited to announce a new era in our dental ministry! The donation of the unit is from Rock Solid Ministries, located right down the street from Central UMC, Newark OH. The mobile unit was the collaborative vision of Toni Reinke, from Central UMC, and Dave Eales, of Rock Solid Ministries.

We have just received the donation of a mobile medical clinic vehicle that we will now re-purpose for use as a mobile dental clinic. Another donor, a retired dentist, and Settlement supporter, has come forward offering to supply more current dental equipment to initially outfit the unit.

We can already feel the hand of God enabling this ministry direction, and know that at His right time, additional dental practitioners will come forward who can use this new capability to help us meet this critical community need.

If you are among those He is calling into this service, please contact Tammy Teague, Community Outreach Director, at 606-337-3613 ext. 332 or 307
