Our Seniors Program

Our Senior Center is a very important ministry for our aging community.

Our goal is to promote healthy aging by giving seniors access to multiple resources available to help them stay active and independent. Our center serves as a meeting place for older adults to connect with peers, families, and their community. We offer exciting activities to keep them active as well as provide fulfilling volunteer opportunities.

Our center has been closed since COVID-19 but that has not stopped us from connecting with our senior community. We have delivered over 700 meals to our Seniors since COVID.

When masks and social distancing mandates were in full force, meals would be delivered to the porch and socializing would be done from the yard. Now that the mandates have been lifted our volunteers stay a little while, visit, and socialize with the ones that receive meals.

Hopefully in the near future we will be able to open for in-center activities. But for now, phone calls, home visits, and meal deliveries are our way of "checking in" on our senior community.

The Henderson Settlement Youth Group planted flowers in pots to be delivered to some of the seniors.
