

ICON Programmer Tech Talks

The next monthly ICON Programmer Tech Talks is scheduled for Thursday, August 25 at 3 PM Eastern. August's call will be focused on IB6 processes. The monthly sessions are a virtual forum discussion series in partnership with the United States Department of Labor (USDOL), and allow state ICON programmers the opportunity to collaborate, discuss best practices, receive technical assistance, and hear an overview of the ICON system.

If you are interested in joining the virtual calls, please contact the NASWA ICON Team at icon@naswa.org.
