

# Trauma-Informed Practices for K12 Schools

A 45-Minute Online Role-Play Simulation

At school, educators see a small part above the water.  
But there's probably a lot happening below the surface.

## Learn how to:

- Recognize when a student's behavior might be the result of trauma or distress
- Lead conversations with a student about how they might be feeling
- Problem-solve ways that your class can become a more comfortable place for students who have experienced trauma
- Assess the need for referral, motivating students to seek help when needed
- Consider your own need for self-care
- Trainings are available on-line 24/7, individuals can work at their own pace, and participants will receive a certificate of attendance
