

The Office of Health Equity Presents: The 2017 Summer Brown Bag Training Series! Interventions that Matter

Thursday August 24th, 2017 | Discussion : 12:30 pm - 1:15pm
TRAIN ID: 1071684

**CLAS
Training
Series:
Part 4/4**

We will go beyond the factors of income and education, and look at more systemic root causes that impact health. Speaker Dr. David R. Williams discusses the cumulative impact that the SDOH and discrimination have on health outcomes. He also discusses programs that are dismantling discrimination in hopes of promoting beneficial health outcomes for everyone. This training will help us have a well-rounded understanding of the different levels of factors that can impact health, and be aware of interventions that can counterbalance the effect of these factors.

Training Objectives:

- Learning about the relationship between high levels of discrimination and health outcomes
- Understanding how implicit bias, residential segregation, and negative stereotypes can create and sustain inequality
- Becoming aware of programs that are dismantling discrimination
- Relating this information to our roles at VDH to improve our impact

Key Concepts:

- Race, society, stress, inequality, health gap, discrimination, healthcare, implicit bias, institutional discrimination, disadvantage.

Panelists:

- **Rita Miller:** Cessation Services Coordinator from VDH
- **Janet Wright:** School Age Health Specialist from Virginia Department of Health
- **Nancy Bell:** Population Health Manager, West Piedmont Health District

How do I participate?

Attend One Screening + the Discussion Session!

Monday August 21 st	Tuesday August 22 nd	Wednesday August 23 rd	Thursday August 24 th
