SBIRT at Norfolk State University

Tuesday, April 18, 2017 9:00 a.m.—4:00 p.m.

Norfolk State University, Student Center, Room 370, 700 Park Ave, Norfolk, VA

Screening, Brief Intervention & Referral to Treatment for Addictions and Substance Use

What is SBIRT

Screening, Brief Intervention and Referral to Treatment (SBIRT) is a comprehensive public health approach for delivering prevention, early intervention and referral to treatment services to adolescents or adults using substances in a harmful or risky way.

Target Audience

Social Workers, counselors, nurses, nurse practitioners, physicians psychologists, faith-based community workers and other behavioral health providers from all settings as can benefit from understanding substance use across a continuum and its impacts on clients behavioral health and other psychosocial interactions.

Program Overview

At the end of this training participants will be able to:

- Identify SBIRT as a system change initiative.
- Compare and contrast the current system with SBIRT.
- Introduce the public health approach.
- Understand the continuum of substance use.
- Discuss the need to change how we think about substance use behaviors, problems, and interventions.
- Understand the information screening does and does not provide.
- Define brief intervention/brief negotiated interview.
- Describe the goals of conducting an intervention.
- Understand the counselor's role in providing BI/BNI.
- Develop knowledge of Motivational Interviewing.
- Describe referral to treatment
