Dear Retired UFOA Member:

The Board of Trustees of the Retired Officers Family Protection Plan is pleased to announce that they have increased your Optical Benefit effective for dates of service on and after July 1, 2020.

The Optical Benefit has been raised from \$55.00 to \$100.00 and the highlights of the increase are below.

- The benefit is now available to you and your covered dependents once every fiscal year instead of every two years.
- Retail frame value covered by your Plan is now \$125.00, Standard Progressive plastic lenses are now included.
- Two- week disposable contact lenses (2 boxes, single vision, non-cosmetic, non-astigmatism)
- Scratch resistant coating is now covered at no cost to you.

The increase also pertains to reimbursement to retirees who reside outside of the participating provider area and use a non-participating optometrist.

You can print or view an outline of your improved optical coverage and find a participating provider by visiting the CPS optical website: www.cpsoptical.com and selecting member and member log in from the drop-down menu. Your member log on is: 854retired.

Retirees living outside the provider area may also print an out of network claim form by visiting www.cpsoptical.com and following the above steps.

As a reminder, the UFOA no longer provides vouchers for the optical benefit. The participating vendors will obtain your information directly from CPS Optical at the time of your visit.
