

***Protecting our People, our Property & our Way of Life***

**North Lafourche Conservation, Levee and Drainage District  
6 mills Ad Valorem Tax  
RENEWAL & REDUCTION**

- There will be a six (6) mill ad valorem **tax RENEWAL** for North Lafourche Conservation, Levee and Drainage District on the October 14, 2017 ballot. This renewal will help the Levee District continue to build and maintain current and future flood protection projects in North Lafourche.
- The current voter-approved tax millage rate is 7 mills and has been in place for the past 20 years. The 7 mills were originally voter approved in 1997 and renewed by the voters in 2007.
- The proposed tax renewal is a **REDUCTION**. The proposed time period for the tax renewal is 30 years beginning in 2019 and ending in 2048. A longer time period is being sought to provide financial certainty for building long-term flood protection projects at an accelerated pace through future bond issuances.
- An estimated \$2,100,000 will be collected annually from the six (6) mills on all the property subject to taxation in the district.
- Levees, drainage systems, and pumps are critical components to living in North Lafourche.
- The North Lafourche Levee District has been efficient and effective in utilizing tax payer dollars constructing and maintaining flood protection projects. These projects are intended to provide flood protection from a variety of events including tropical and extratropical rains and surges as well as riverine backwater flooding.
- In the past two years, the District has been able to spend more on projects than in the prior history of the levee district. The District uses a science based, non-subjective assessment methodology for prioritizing projects. (NOPET)

**NLLD IS TURNING DIRT to build projects that will  
protect our people, our property and our way of life.**
