

**Chagrin Falls Middle School  
Science and Technology Career Day  
Tuesday, May 22, 2018**

Dear Community Members,

We invite you to sign-up to join us in our 2017-18 Community Members in Science Career Day! Our intentions are to facilitate the real life connections that students can make between the career professions of our community members, friends, neighbors and family that directly relate to the curriculum that is taught in both the 7th and 8th grade here at CFMS.

The Middle School science teachers are looking for individuals who have science or technology related career fields, who would be interested in sharing their experience and expertise with the students at CFMS.

As a presenter, we are asking for you to share a 15-20 minute presentation about your career, education, career path, the day-to-day job demands, continuing education that is required, and any additional information about your career that you find most interesting, most demanding, and anything inspirational that you feel would be relevant to our students as they look ahead to career paths that they may be interested in pursuing. The sign-up times posted would allow for 2-3 presenters for each 45 minute science class. The class sizes can range from 20-30 students and there are often 3 classes going on at the same time. You can also sign up for a block of times, which would allow for you to present to more than one class period in the morning or afternoon, if your schedule allows. Presenters are welcome to sign up by Tuesday, May 15, 2018 for as many sessions as they would like throughout the day.

SignUpGenuis Short URL: <http://bit.ly/2GGnCni>

*Note: If you have or know a child in 7th or 8th grade and would like to share with their class, please consult the student for the best time to sign up.*

We look forward to your participation to give back to the students of our community! If you have any questions, please contact one of the CFMS science teachers listed below.

Thank you!
