AI in the Engineering & Tech Industries Event Recap February 27, 2026

The Rochester Engineering Society, in partnership with the University of Rochester, recently hosted *AI in the Engineering & Tech Industries* in the May Room at Wilson Commons.

L3HARRIS

The event brought together students and professionals for an engaging discussion on how artificial intelligence is transforming the engineering and technology industries. Attendees had the opportunity to learn about emerging trends, explore potential career pathways, and connect with peers and industry professionals.

RES would like to thank everyone who attended and contributed to making this event a success. Events like this help foster collaboration between students, professionals, and the broader engineering community while highlighting the evolving role of technology in our field.

We look forward to hosting more programs that support learning, networking, and professional development within the engineering community.

JOB POSTINGS

Would you like to post an ad in the RES job postings newsletter & website? **To submit a job posting for our newsletter, email RES@frontiernet.net.**

New York State Pay Transparency Law requires all job, promotion, or transfer opportunities advertised by an employer to include a salary, hourly rate, or range of pay. For any job descriptions sent to the Rochester Engineering Society for posting, please include the pay ranges for the positions. We reserve the right to not post the job until that information is included.
