Who We Are

PHASE Associates, LLC, has provided Safety, Industrial Hygiene and Indoor Air Quality Training and Consulting Services for over 23 years, and this brochure is only a summary of all of the services we offer. We provide services to a wide range of clients for both the corporate and public sectors. Our client base ranges from Fortune 500 to mid-size and small companies with varying project sizes, scope of services and deadlines. We emphasize personal service, communication, coordination, planning, and a team approach to problem solving. PHASE Associates believes in delivering the highest quality of work to our projects and successful completion of each project.

PHASE Associates provides consulting, training and professional outsourcing services to meet a wide range of Environmental, Occupational Health and Safety challenges. Our excellent reputation, years of experience, and proven expertise have made us an industry leader. We are known for our resourcefulness in responding quickly to manage a customer's situation and to effectively set-up a relevant solution. Our dedication to providing excellent service has resulted in long-term relationships with many of our clients.
