11:00AM-12:30PM

Grand Blanc Township Police Department

5405 Saginaw Rd, Flint, MI 48507

**Bring MCOLES ID #
RSVP by Friday before**

Genesee County has an infant mortality rate of **2.0 deaths per 1000 live births**. Sleep-related infant deaths are **100% preventable**, and yet thousands of babies die every year from an unsafe sleep environment. The danger doesn't end with where the baby is sleeping. Infants between **2-3 months** of age experience a phase of persistent crying. If parents and caregivers are unequipped to cope with the stress of a crying child, their actions can be **deadly**. As first responders, you have access to these homes and the ability to prevent these deaths from occurring so that these kids can grow up to achieve their dreams.
