

why choose Hail Free Solutions

Family owned & operated business

In the automotive hail repair business for 20 years

Rental car provided when insurance does not for entire time of repairs

Customer deductible waived up to \$500

We guarantee our work!

We all know someone who has been affected by one of those unexpected hail storms. We know that those dents in your car not only look bad, but definitely decrease the value of your car. Hail Free Solutions works directly with the insurance companies to coordinate the repairs for you. Our method of repair is Paintless Dent Removal, also known as PDR. Most cars are repaired without the lengthy process of repainting or body work. Because of this as well as our expertise in hail repair, your car's value is restored and the factory finish is untouched. Your car will look great and we get to see you smile.

supporting our community

Our fundraiser or donation program is a win-win for our local growing business and our community schools. We share a mutual interest which is our most cherished family members, our children and the most deserving people we know, our teachers. Because our business model allows for us to work directly with insurance companies, there is no middle man, and no costs to share with any third party. We will always extend our savings to our customers but now we are able to give back, and we choose to support a cause that has true meaning to our family and the future of our little ones.

School fundraiser for automotive hail repairs for families referred to Hail Free Solutions

For each car repaired, Hail Free Solutions will donate \$250 to the school fundraising fund

Our goal is to help you reach your's

Hail Free Solutions is a proud partner of the Foundation for Douglas County Schools
