

The Polk County Economic Development office is attempting to locate the hard-to-obtain items to help our businesses operate during the COVID-19 crisis. At this time, they have FREE cloth masks, liquid sanitizer, and (hand / locally made) sanitizer stands. There are two sizes available. See the pictures below. These are made to order and hold a 32 oz. Spray bottle of liquid sanitizer (this can also be provided).

They are working to get disinfectant and cleaners, thermometers, and sneeze guards.

For additional information or to request any of these items please contact Lindsey McGaha, Senior Business Specialist for Polk County.

Also if you need these items delivered feel free to reach out to Paula Aguilera-Johnson, Executive Director of the Carolina Foothills Chamber of Commerce.
