

Summer Writing camps

Two Writing Camps

Grammar Basics

July 7-11

10AM-12PM

Research Paper Writing

July 14-18

10AM-12PM

Grammar Basics Camp

Join us for an engaging week dedicated to mastering grammar and improving writing skills! Throughout the week, we will delve into the different parts of grammar and how to use them correctly. From learning how to diagram sentences to understanding sentence structure, we will cover it all. Our focus will also be on sharpening spelling and contextual understanding to enhance your writing abilities. This program is designed for students entering 5th grade and above who are eager to boost their language skills. Sign up today!

Research Paper Writing Camp

This program is designed for students entering 6th grade and above who want to master the art of writing a proper research paper. Throughout the week, participants will learn valuable skills such as effective note-taking, creating a detailed outline, crafting rough drafts, and polishing their work into a finished copy. By the end of the program, students will have the confidence and know-how to tackle any research project with finesse. Don't miss this opportunity to enhance their writing abilities and excel in their academic pursuits. Sign up now and embark on a journey to become a skilled researcher and writer!

\$200/week per class

Minimum of five (5) students
required to hold the class.

Summer Math Camps

Two Math Camps

Math Basics
July 7–11 1PM–2:30PM

High School Review
July 14–18 1PM–2:30PM

Math Basics Camp

This week of learning will involve lots of opportunities to build math skills. Basic multiplication and division with fractions, percents, and decimals will be covered. Ratios and proportions will also be explored, providing a comprehensive understanding of these fundamental math concepts. Students can expect to engage in a variety of activities and exercises that will enhance their problem-solving abilities and critical thinking skills. By the end of the week, they will have a solid foundation in key mathematical principles that will serve them well in their academic pursuits. Open to students entering 5th grade and above.

High School Review Camp

Join us at our upcoming math camp where our time will be spent exploring algebraic and geometric concepts. This camp is designed for students entering Pre-Algebra and above, offering a solid foundation in key mathematical principles. Throughout the camp, students will delve into topics such as graphing, polynomials, basic geometric formulas, and other fundamental concepts. By participating in this camp, students will enhance their problem-solving skills, critical thinking abilities, and mathematical proficiency. Don't miss this opportunity to expand your knowledge and excel in math. Sign up now to secure your spot in this enriching and educational experience!

\$150/week per class

Minimum of five (5) students required to hold the class.
