

ECHO Training Series:

Early Childhood Positive Behavior Support for Integrated Behavioral Health Staff

Join us in our 6-month [ECHO](#) training series to increase your knowledge, skills, and self-efficacy in using the [Pyramid Model](#) and integrating early childhood positive behavior support in your practice. This opportunity will bring together behavioral health clinicians, family partners, community health workers, and other providers learn from each other on how to best support families in promoting their child's healthy social and emotional development. Participants will also gain a better understanding of family engagement and culturally responsive practices to improve the quality of care for their children and families.

ECHO Training Series Details

What: A free 12-part training series, including case consultations

Who: Social workers, LMHCs, Family Partners, Community Health Workers and related roles. First priority for slots to Western and Central MA participants.

When: March 15, 2023—August 23, 2023 from 12:00pm-1:15 PM on Wednesdays, twice a month

Register here: <https://cvent.me/x5byar>

For questions, please feel free to contact Holly Velleca at Holly.R.Velleca@mass.gov

Benefits of ECHO Training Series

- Enhanced understanding through short and interactive presentations on using the Pyramid Model in pediatric primary care followed by case consultations.
- Opportunity to receive feedback and support on cases through an “all teach, all learn” approach.
- Opportunity to build relationships for mutual support in integrating approaches and tools.
- Ability to make linkages to early childhood and family support systems of care.
- Access to online resources to use with families in multiple languages.
- Free CEU Credits offered for social workers, LMHCs, and CHWs.

We recommend participants commit to attending all 12 ECHO sessions to benefit from this training as designed.
