

Join Routt County Public Health for the S4NP presentation on February 24th

Where: Community Room- Health and Human Services Building- 613 Oak Street, Steamboat Springs, CO

When: February 24- 3:00-4:00pm

Meg Hummel, Colorado representative from Safety for Non-Profits (S4NP), will present on how S4NP can help your non-profit organization.

S4NP helps your volunteers and employees work safely – at no cost!

Meg will address the following in her presentation:

- Why your organization might need safety help to control risks
- Services that S4NP can provide to support your non-profit – all pro bono!
- How to get started receiving free safety help
- Q&A

*People shouldn't get hurt when
volunteering and giving back*

Our Vision

**To make every nonprofit organization in the U.S.
a safe and healthful place in which to work and
volunteer.**

Our Mission

**Safety For NonProfits is committed to increasing awareness of
safety and health issues faced by nonprofit organizations and
providing pro-bono advisory services at their workplaces.**

History

Nonprofits represent a large and diverse part of the US economy and society. There are about 1.3 million nonprofits in the US that employ more than 12 million people. In addition there are 64 million board members and volunteer workers engaged with these nonprofits.

Each week in the US a volunteer worker is killed or injured in the process of doing volunteer work.

This doesn't need to be the case. Many nonprofits need the help of skill professional EHS experts to recognize the safety hazards associated with their operations.

Safety for NonProfits can help fill this gap by providing free, professional environmental, health and safety services.

Who we are

A group of EHS professionals that have formed Safety for NonProfits (S4NP), a registered 501 (c) (3) company that promotes the fundamental human right to a safe and healthy workplace while supporting the values of charitable work. We work to deliver professional workplace environmental, health and safety services on a pro bono basis to nonprofit organizations.

Jack Geissert

Founder and President of Safety For NonProfits, Inc. (S4NP).

Jack is a Certified Industrial Hygienist (Ret. 1979-2022) and has worked for 49 years to enhance worker safety and health. As a professional in leadership roles, Jack has been a key technical expert and functional manager for environment, health, safety and loss prevention for major companies in the vaccine and biopharmaceutical, semiconductor and computer manufacturing, and environmental remediation industries.

Jack is the co-author of *Don't Forget the Worker-Stories of Workplace Safety and Health* (ACGIH 2024).
