

# Dad You Rock – Father's Day Gift

Tell dad he is the best by giving him this cool Father's Day gift! The idea was shared by one of our Wee Watch St. Catharines Providers named Shenyl M! Dads can hang this gift with pride in their home or office.

## What you need:

- Wooden plaque (you can use a small canvas if you can't find a plaque)
- Big rock and a small rock
- Paint and small brush
- Googly eyes
- Glue (Gorilla Glue or hot glue may be best depending on how heavy the rocks are!)
- String

## What to do:

1. Go out with the children to find the rocks for this activity. Try to find smooth, clean rocks so that they will stick on the plaque and can be painted
2. The children can paint the rocks if they want to or leave them as found. Then have them glue googly eyes (or paint them) on each rock.
3. Once they have completed their 'rock figures', glue the rocks onto the middle of the plaque or canvas and draw the arms and legs in place, and write, "Dad You Rock" with a permanent marker (older children can write this themselves)
4. It could also be fun to write the child's name under the small rock and dad's name under the big rock, or add a rock for every child and pet in your family!
5. Once the paint and glue is dry, glue a string on the back of the plaque so that dad can hang it
6. Wrap it and give it to dad on Father's Day!
