

# Wee Play & Learn

## Wee Beginners (0-18 months): Mini Water Blobs

### What You Need:

- 2 freezer bags
- Duct tape (can be colourful duct tape)
- Water
- Bath toys (not pointy)
- Towel

### What To Do:

1. Place bath toys in one of the freezer bags and fill with water. Try to squeeze out most of the air and seal tightly.
2. Use duct tape to make the seal extra strong. Use two overlapping strips folded over the edge.
3. Place your filled bag, with the taped side down, inside another freezer bag. Again, squeeze out as much air as possible and seal tightly.
4. Duct tape that second edge for extra security.
5. Place a towel down on the surface.
6. Let baby squish, explore, and play!
