

Wee Play & Learn

Wee Builders(3 - 4 years): Snowman Says (Auditory, Visual & Kinesthetic Learning)

Like a game of Simon Says, with a winter theme, this game is great to support learning for auditory learners as they listen for the action they are to follow with, for visual learners as they read the card or interpret the action from the card, and for Kinesthetic learners when they act out the motions.

What You Need:

- Black top hat (many Dollar stores have them)
- Snowman says cards (template in link below)
- Scissors

What To Do:

1. Print and cut up the Snowman Says cards.
2. Assign a child as the "Snowman", have them select a card and read it , saying "Snowman Says, "touch your buttons" for example.
2. The other children should do what the Snowman says, acting out the various actions.
