(5-6 years):
Letter/Number Learning
Snowball Toss

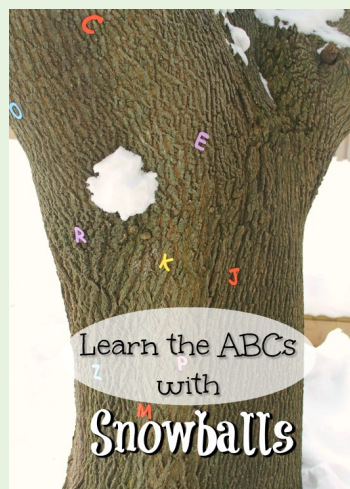

What you need:

- Foam letter and number stickers
- Big tree to stick the foam stickers on
- Snow for snowballs

What to do:

1. Help children stick the foam letters and numbers onto the big tree, making sure they are spread out.
2. Make snowballs with children.
3. As you are starting to play, make up games such as "lets spell your name" and get children to throw a snowball at each letter of their name. You can ask children to throw snow at a number that matches their age.
4. Encourage children to use their imagination and make up various games with letters and numbers.
