

Uniting "Wee" Communities Across Ontario

TOGETHER WEE CAN "EXPLORE OUR PLANET" 2019

Wee Watch's unique program, "Together Wee Can", provides a wonderful opportunity to bring all of our homes across Ontario together to participate in themed activities and events on specific days, weeks and months throughout the year. Planning a few events each year strengthens the Wee Watch community we are all part of as well as the community we live in.

This year's Together Wee Can program is called "Together Wee Can Explore our Planet". It's easy to forget that we live on one tiny planet in a huge universe; children are only familiar with their surroundings, which is just a tiny part of planet Earth.

The natural inquisitiveness that children possess will spark some fantastic discovery throughout the year. Each month Providers and children will explore a different component of our planet; desert life, different bodies of water, forests, seasons, bugs, mountains & volcanoes, the arctic, animals big & small, weather, people and space!

January 21-25, 2019: Earth day Everyday

We begin Together Wee Can "Explore Our Planet" by taking a look at planet Earth. Do you know where you live? With the hustle and bustle of everyday life, it is easy to forget that the human family lives on a small planet named Earth. All around us we see trees, animals, cars, buildings, farms, factories, stores, and other natural and man-made structures.

With all of these every day familiar objects around us and with the vast sky above us, and the deep oceans beneath us, our home planet often feels quite large. Compared to us, it is very large. There is enough space for each of us, our families, friends, our pets, as well as trillions of other life forms to live.

During the week of January 21-25, 2019 our homes will focus on planet Earth, Earth Day shouldn't only be one day a year, it should be everyday. We will learn about earth and simple things we can do everyday to help make a difference and take care of our home.

February 4-8, 2019: Journey Through the Desert

Did you know the meaning of the word desert is 'an abandoned place'? A desert is a dry place that receives little or almost no rainfall. The temperature of the desert can be hot or cold. Around one third of the Earth's surface is covered in deserts.

Our weeklong event, "Journey Through the Desert" gives Providers and children the opportunity to learn all about the desert. During the week of February 4-8, 2018 we are going on a Journey Through the Desert with our friend Alice the Camel!

Children will make their own Alice the Camel puppet and explore the desert together, they will discover; sand, lizards, camels, and plant life like.
