Uniting "Wee" Communities Across Ontario

## TOGETHER WEE CAN "CELEBRATES 10 YEARS" 2018

Wee Watch's unique program, "Together Wee Can", provides a wonderful opportunity to bring all of our homes across Ontario together to participate in themed activities and events on specific days, weeks and months throughout the year.

Planning a few events each year strengthens the Wee Watch community we are all part of as well as the community we live in.

This year, 2018, marks the 10th anniversary of when Together Wee Can began! Wee Watch is thrilled to announce this year's theme; Together Wee Can "Celebrates 10 years". This year will include some of our favourite themes and events from the past 10 years.

### March 19<sup>th</sup> – 23<sup>rd</sup>: Fill a Bag to Help Fill a Tummy Food Drive

It is always nice to give back and help those who are less fortunate, which is why when "Together Wee Can Make a Difference" started in 2008, we made sure to include a food drive.

In an effort to help families in communities across Ontario, Wee Watch is bringing back our Food Drive event. This month, Wee Watch homes will participate in the Together Wee Can "Fill a Bag to Help Fill a Tummy" event to help replenish the food on hand at local food banks. The "Fill a Bag to Help Fill a Tummy" food drive is planned for **March 19-23**, just before the Easter holiday. It's a good opportunity to teach children the importance of giving and helping others.

Children and Providers will be decorating a donation collection box/bag and collect donations during the week of March 19-23.

### April 16<sup>th</sup> – 20<sup>th</sup>: Twice is Nice Art Show

Earth Day is a day to reflect on our planet and what we can do to keep it healthy for generations to come. Children are an important focus on Earth Day as they are the part of the population with the most at stake. It is important to teach young children good "green" habits that they will use throughout their lifetime, and pass on to the next generation.

Having children help with recycling, going through their toys and clothes for donation, composting, using reusable cloth bags for shopping, using reusable containers for their lunch at school, using water from rain barrels to water plants, and reducing hydro use are just a small sample of what can make a big difference every day.

During the month of April children and Providers will learn all about recycling and use natural and recycled items to create their own masterpieces and display all of their creations in a "Twice is Nice Art Show".
