EXPLORING PARA ADUMA IN SEVENTH AND EIGHTH GRADES

Seventh and eighth grade students worked hard to create guides on how to prepare a para aduma (red heifer) that they presented to the class. Students came up with all different types of creative projects based on the psukim they learned and focused their study on the preparation and use of the para aduma ashes. This was a great way for the students take ownership of their learning and review the perek in a fun and exciting way.
